Lady Caro'zart is an Italian and French Djane and producer . Luxemburg is her residency and it's where everything began 6 years ago. Music was her passion from childhood. She discovered electronic music at 18 and felt in love on the dancefloors. Even if she lived in Paris, it's in Luxemburg that something clicked in her.

She began dj'ing locally in Luxemburg and little by little in France and Germany.

Melodic , vocal and techno sounds represent her style ,sometimes groovy, or more dark . Her inspirations are various : Chicane, Jeremy Olander, Rafael Cerato, Paul Sawyer, Yotto, Citizen Kain, Bicep or more techno dj's like Nicolas Taboada, Spektr, Pleasurkraft , Rebuke, Ramon Tapia and female producers such as : Monika Kruze,Nicole Moudaber, Sama , Anja Schneider among many others.

She is signed to Italian and English labels (Krafted Underground, Samsara Expérience and Wild), her adventure as a Producer is growing and her music is also evolving. From Progressive house or Electronica to more melodic techno and techno ,her music is a mix of sweetness, with some aerial voices, very deep synth , present claps or active percussions .

Sometimes more groovy with housy voices , she loves to include some very underground sounds to represent her more dark side . If she could speak about herself, she would say that she is a bowl of energy and emotions.

The most important things for this artist is to share is make Love with music and to make people dance.
